Brack Electric LLC is owned by Riley Brack and operates as a full service electrical contractor with a strong background in residential, commercial and industrial construction and service. Riley has managed projects from small residential service and installation to multi-million dollar projects; designed and installed electrical for large custom homes, 33 story condominiums, data centers, fitness centers, semiconductor plants, hospitals, justice centers, jails, chemical plants, new paper facilities, Navy bases, marinas, and aircraft manufacturing facilities. Contractors and owners Riley has managed in the past include Turner, Baugh, PCL, Ledcor, Sabey, Howard S. Wright, Sierra and Hoffman. As well as Boeing, City of Seattle, Seattle Port Authority, Everett Port Authority, METRO, Siemens/Motorola, Toshiba, IDT, Epson, Fred Meyer and Washington Mutual.

About Riley Brack

"My grandfather, my uncle and my father were all electrical contractors. I began in the industry at the age of ten threading conduit nipples, sorting inventory and cleaning the warehouse. I became a journeyman electrician at 19 and a Master electrician at 22. I operated my father's electrical business for 13 years, bought and owned that business for 5 years then merged in with another company."

Brack Electric LLC has been in operation in Washington for more than 4 years. In that time we have designed and installed wiring for the following:

- Machine shop for Frost Engineering.
- Machine shop for 4-valve manufacturing.
- Two 3-story office buildings in South Seattle.
- Maintenance for Development Resource Group Properties.
- Dimension Systems plant modifications.
- Maintenance for K3BC LLC properties.
- Service Upgrade Schenk Packing Plant.
- Residential service for 400+ customers.
